C-6 FACILITY, LOS ANGELES (SLIC NO. 410)**

Dear Mr. Mossman:

We have received the "Supplemental Groundwater Monitoring, Waste Discharge Requirements (WDR) Order Number R4-2002-0030 (Series 007), Compliance File No. CI-8494, Former Boeing C-6 Facility (Site), Los Angeles, California" (Request) dated April 22, 2004, prepared by Arcadis G&M, Inc. (Arcadis) on behalf of Boeing Realty Corporation (BRC). As described in the Request, construction activities and technical difficulties have resulted in schedule delays. The first amendment event has been postponed until June 2004 so that the first monitoring event will be conducted in by July 2004. Monitoring will be conducted 2, 6, 12, 16, 21, and 36 weeks after the completion of the first injection event, and quarterly thereafter in accordance with the permit.

The Regional Board issued a letter to BRC dated June 3, 2004 that concurred with the modified monitoring program presented in the Request and stated that a modified reporting schedule reflecting these changes would be issued at a later date.

The reporting schedule has been modified and is presented below. This reporting schedule supersedes all previous requirements. The first monitoring report under this Program is due by **January 28, 2005**. BRC is required to submit reports according to the following schedule:
